If you love what you are doing, you will be successful."*
Herman Caln

Education at DAV Institutions across world has been tailor made to not only render the students as employable workforce but groom them into responsible citizens of our great nation with a strong foundation of Indian culture and Vedic values. Our pursuit of achieving the right balance between academic development and character building of our students have helped us in developing a rational working model in our management institutes where members of the faculty double up as life coaches and mentors for the candidates. With the right amount of mentoring and personal training we continue to be a premier conglomerate of institutions which students look up to as avenues of hope, growth and success. Technology enabled growth in the Indian economy has brought forward the need for competent and contemporary management and IT education. DAV Institute of Management, is making concerted effort in infusing high level of management competence in a dynamic, yet resource constrained environment. Preparing the future mangers to be capable of harnessing the maximum out of limited resources through innovative and efficient management of technology and trade is crucial to our economic growth and development. Maharshi Dayanand could see that it is the mind of a person that all the evils and superstitions are born and bred. The only course is to fight it by eradication of ignorance and illiteracy. Therefore DAVIM is imparting his message "BE A THINKER BUT BE ALSO A DOER, BE A SOUL, BUT ALSO A GOOD HUMAN BEING. BE COMPASSIONATE, HAVE HUMILITY, TRUTHFULNESS & HONESTY." Let's try and strive to achieve some of them.
