|       | 37    |                     | Preparation Of Profit & Loss A/c                                      | Interactive lecture |                                   |                  |
|       | 38    |                     | Preparation Of Profit & Loss A/c                                      | Practice            |                                   |                  |
|       | 39    |                     | Preparation of Balance Sheet                                          | Interactive lecture |                                   |                  |
|       | 40    |                     | Preparation of Balane Sheet                                           | Practice            |                                   |                  |
|       | 41    |                     | Basics of Tally Software                                              | Interactive lecture | Assignment – 4                    |                  |
|       | 42    |                     | Basics of Tally Software                                              | Interactive lecture |                                   |                  |
|       | 43    |                     | Basics of Tally Software                                              | Interactive lecture |                                   |                  |
|       | 44    |                     | Basics of Tally Software                                              | Interactive lecture |                                   |                  |
|       | 45    |                     | Revision unit-1                                                       |                     |                                   |                  |
|       | 46    |                     | Revision unit-2                                                       |                     |                                   |                  |
|       | 47    |                     | Revision unit-3                                                       |                     |                                   |                  |
|       | 48    |                     | Revision unit-4                                                       |                     |                                   |                  |
|       | 49    |                     | Important Questions                                                   |                     |                                   |                  |
|       | 50    |                     | Important Questions                                                   |                     |                                   |                  |

**Lesson Plan for semester starting w.e.f. 17<sup>th</sup> August 2026**

**Name of the subject: Business Economics**

Subject Code: 26IMSII401DS03

Name of Institute: DAV Institute of Management, Faridabad

Name of Teacher with designation: Dr. (CA) Bhawna Kharbanda, Assistant Professor

Department: BBA (Industry Integrated)

Class time: 1 Hour

| Month | S. No. | Date of Class Taken | Topic/ Chapter covered                                          | Academic Activity    | Test / Assignment                                  | Deviation (if any) |
|-------|--------|---------------------|-----------------------------------------------------------------|----------------------|----------------------------------------------------|--------------------|
|       | 1      |                     | <u>Unit -1:</u> Meaning, Nature & Scope of Managerial Economics | Lecture & Discussion |                                                    |                    |
|       | 2      |                     | Utility Approach, Law of Diminishing Marginal Utility           | Lecture & Discussion |                                                    |                    |
|       | 3      |                     | Law of Equi Marginal Utility                                    | Lecture & Discussion |                                                    |                    |
|       | 4      |                     | Consumer Equilibrium – Utility Approach                         | Lecture & Discussion |                                                    |                    |
|       | 5      |                     | Indifference Curve – Meaning, Assumptions & Its Properties      | Lecture & Discussion |                                                    |                    |
|       | 6      |                     | Law of Diminishing Marginal Rate of Substitution                | Lecture & Discussion |                                                    |                    |
|       | 7      |                     | Theory of Consumer Choice, Consumer Surplus                     | Lecture & Discussion |                                                    |                    |
|       | 8      |                     | Price, Income & Substitution Effect                             | Lecture & Discussion |                                                    |                    |
|       | 9      |                     | Discussion on Assignment Questions                              | Discussion           | Assignment (Utility approach & Indifference Curve) |                    |
|       | 10     |                     | Elasticity of demand – Meaning & its types                      | Lecture & Discussion |                                                    |                    |
|       | 11     |                     | Price Elasticity of Demand                                      | Lecture & Discussion |                                                    |                    |
|       | 12     |                     | Income & Cross Elasticity of Demand                             | Lecture & Discussion |                                                    |                    |
|       | 13     |                     | Demand Forecasting                                              | Lecture & Discussion |                                                    |                    |
|       | 14     |                     | Relationship between price elasticity and                       | Lecture & Discussion | Assignment (Elasticity of                          |                    |

|  |    |  |                                                                                               |                      |                              |  |
|--|----|--|-----------------------------------------------------------------------------------------------|----------------------|------------------------------|--|
|  |    |  | marginal revenue                                                                              |                      | Demand & Demand Forecasting) |  |
|  | 15 |  | <u>Unit -2</u> Production Function, Law of Variable Proportion                                | Lecture & Discussion |                              |  |
|  | 16 |  | Law of returns, Optimal input combination                                                     | Lecture & Discussion |                              |  |
|  | 17 |  | Output-cost relations                                                                         | Lecture & Discussion |                              |  |
|  | 18 |  | Output-cost relations                                                                         | Lecture & Discussion |                              |  |
|  | 19 |  | Engineering cost curves, Technological change and production decisions                        | Lecture & Discussion |                              |  |
|  | 20 |  | Revenue curves of a firm                                                                      | Lecture & Discussion |                              |  |
|  | 21 |  | Price and output decisions under alternative market structures                                | Lecture & Discussion |                              |  |
|  | 22 |  | Price and output decisions under alternative market structures                                | Lecture & Discussion |                              |  |
|  | 23 |  | Price and output decisions under alternative market structures                                | Lecture & Discussion |                              |  |
|  | 24 |  | Baumol's sales maximization model                                                             | Discussion           |                              |  |
|  | 25 |  | Advertising and price-output decisions                                                        | Lecture & Discussion | Assignment-Unit -2           |  |
|  | 26 |  | Unit -3 Product Differentiation, Price-output decision in multi-plant and multi-product firms | Lecture & Discussion |                              |  |
|  | 27 |  | General pricing techniques                                                                    | Lecture & Discussion |                              |  |
|  | 28 |  | Special pricing strategies – limit pricing                                                    | Lecture & Discussion |                              |  |
|  | 29 |  | Peak load pricing and transfer pricing                                                        | Lecture & Discussion |                              |  |
|  | 30 |  | Dumping analysis                                                                              | Lecture & Discussion |                              |  |
|  | 31 |  | Pricing of Public utilities                                                                   | Lecture & Discussion | Assignment -4 (Unit -4)      |  |
|  | 32 |  | <u>Unit: 4</u> Risk Analysis                                                                  | Lecture &            |                              |  |

|  |    |  |                                              |                      |                         |  |
|--|----|--|----------------------------------------------|----------------------|-------------------------|--|
|  |    |  |                                              | Discussion           |                         |  |
|  | 33 |  | Investment and capital replacement decisions | Lecture & Discussion |                         |  |
|  | 34 |  | Locational choice of a firm                  | Lecture & Discussion |                         |  |
|  | 35 |  | Measure of national income                   | Lecture & Discussion |                         |  |
|  | 36 |  | Measure of national income                   | Lecture & Discussion |                         |  |
|  | 37 |  | Business Cycles                              | Lecture & Discussion |                         |  |
|  | 38 |  | Operative aspects of macroeconomic policies  | Lecture & Discussion | Assignment -4 (Unit -4) |  |
|  | 39 |  | Inflation analysis                           | Lecture & Discussion |                         |  |
|  | 40 |  | Tariff analysis                              | Lecture & Discussion |                         |  |

**Name of the Subject: Indian Vision for Human Society**

**Subject Code: 25IMSX01MD01**

**Name of the Institution: DAV Institute of Management**

**Name of the teacher with designation: Ms Vriti Bhatia (Assistant Professor)**

**Class Time: 1 Hr**

**Section - A**

| Class | Date of Class Taken | Topic /Chapter Covered                                                                        | Academic Activity    | Test/ Assignment | Deviation |
|-------|---------------------|-----------------------------------------------------------------------------------------------|----------------------|------------------|-----------|
| 1     |                     | The World View & Vision of Human Society – non-duality of Prakriti (Jad) and Purush (Chetana) | Lecture / Discussion |                  |           |
| 2     |                     | Human as coexistence of Jad & Chetan; Pancha-mahabhutas                                       | Lecture              |                  |           |
| 3     |                     | Root of sorrow and suffering; freedom from sorrow                                             | Lecture / Discussion |                  |           |
| 4     |                     | Salvation, eternal peace (Vihakarika Satya) and ultimate truth                                | Lecture              |                  |           |
| 5     |                     | Various systems of philosophy; realization of truth and completeness in society               | Lecture / Discussion |                  |           |
